Idea:

Idea:

**Think:** In the summer, the ice cream truck comes on Wednesday and Saturday nights. On Wednesday, the ice cream truck sells 75 ice creams. On Saturday, the ice cream truck sells 10 times as many ice creams as it does on Wednesday.

Jamia says that the ice cream truck sells more than 500 ice creams on a Saturday. Gia says that the ice cream truck sells less than 800 ice creams on Saturday. Who is correct? How do you know?
